## BOOK SYNOPSIS

BIKE ART pays homage to our two-wheeled friend, presenting works created on walls, canvases, paper, pedestals, bike frames, skin and clothing by an international team of artists. In addition, the bicycle receives a complete makeover as designers compete to create the most original ride, whether re-envisioning the age-old form in its entirety or creating custom pieces for private consumption. A voyeuristic showcase of the lesser-known aspects of the culture - including festivals, performing arts and good works - rounds out this must-have volume.
